FAR 61.156 Airline Transport Pilot Certification Training Program

COURSE INFORMATION

COURSE MODULE	
Course Length	**6 Days**
Ground School & Exam	31.0 hours
Brief/Debrief	3.0 hours
Simulator (Pilot Flying)	5.0 hours
Simulator (Pilot Monitoring)	5.0 hours

ADDITIONAL INFORMATION

- This course is required as a prerequisite to taking the FAA ATP Written examination. Although it covers many of the FAA ATP Written examination topics, it is not an FAA ATP Written examination preparation course.

- Because crew coordination is required, a minimum of two attendees is required to conduct this course, unless otherwise previously arranged with the training center.

- This course does not result in any additional ratings or certificates.

- It is NOT recommended for students to schedule their FAA ATP written exam in less than 24 hours after course completion.

ATP PREREQUISITES

The pilot must possess a valid Commercial Pilot Certificate, Instrument Rating and Multi-Engine Rating; or equivalent foreign license. ICAO recognized.
