

2021 MBAA Scholarship Application

FlightSafety International – ATP/CTP Course

About MBAA

The Minnesota Business Aviation Association has been an advocate for business aviation since 1955 with over 600 current members from all different aspects of our industry. We are committed to supporting current and future leaders in business aviation and want to ensure we retain talented and dedicated professionals for years to come. The MBAA proud to offer financial scholarships to students and individuals who show a strong commitment to pursuing careers in business aviation.

About Flight Safety International

FlightSafety International views safety as a promise and commitment. We build trust over time and continue to earn it each day. Since our founding in 1951, our instructors, engineers, technicians and teammates have greatly contributed to aviation safety around the world. Through comprehensive training programs taught by top instructors. By designing and manufacturing advanced-technology flight simulators and products that provide unmatched realism.

Scholarship Opportunity

This year, the MBAA will be awarding either one (1) ATP / CTP Program in partnership with Flight Safety International. The training bridges the gap between the knowledge of the commercial pilot and that which is expected of an ATP certificate holder, specifically in the areas of aerodynamics, automation, adverse weather conditions, turbine engines, and transport airplane performance. The pilot will become familiar with recognizing, avoiding, and recovering from errors which can occur when operating turbine-powered transport category airplanes in a complex and dynamic environment. The recipient's will be strongly encouraged to attend the award presentation in August 2021.

Scholarship Eligibility and Requirements:

- Completed '2021 Scholarship Cover Letter' (found on the MBAA scholarship website)
- Copy of your current resume
- Copy of official transcript from current/previous college or university
- Copies of all FAA ratings or certificates held (if applicable)
- Commercial Pilot Certificate, Instrument and Multi-Engine Ratings
- A 250 to 500-word essay describing the applicant's previous background, current involvement, and demonstration of their commitment to pursuing a professional career in business aviation.
- A letter of recommendation from a member of the aviation department faculty (for students) or relevant professional contact. (Other than relatives or students)
- Preference will be given towards Minnesota residents/students followed by that of surrounding states.
- Scholarship applicants will be interviewed (by phone or in person) by representatives of the MBAA no later than July 16, 2021.

Please complete the above requirements and submit your application package by no later than June 18, 2021 by mail or email to the following:
